THE PENNSY LVANIA LINES

REPORT SHOWING THE RESULT OF OPERATIONS IN THE YEAR 1896.

Large Purchase of Steel Rails Under Contemplation.

The directors of the Pennsylvania lines east and west of Pittsburg yesterday issued their fiftieth annual report, which shows:

The gross earnings of the three grand divisions east of Pittsburg and Erie, embracing the Main line, United Railroads of New Jersey, and Philadelphia & Erle Railroad and branches, were\$62,096,502.66 Expenses 43,459,326,91

Net earnings\$18,637,175.75 In view of the severe business depression prevailing during a large portion of the year, and the consequent reduction of traffic and the sharp competition between the transportation interests, the results may be considered as satisfactory. After providing for all obligations and expending about \$1,500,000 in improving your property the regular dividend of 5 per cent. was

paid and a surplus of nearly \$500,000 carried to the credit of profit and loss. The number of tons of freight moved on the three grand divisions east of Pittsburg 5,292,401, or 6.76 per cent.; the number of sengers was 36,170,220, a

,282,217, or 3.42 per cent. The other railroad companies east Pittsburg and Erie in which your company is interested show generally decreased earnings, due to the business depression prevailing throughout the country. The total amount of coal mined during the year by the four coal companies in which you are interested was 1,975,385 tons, a decrease of 232,849 tons.

Necessary funds were deposited in New York to purchase the \$1,899,000 of 7 per cent. irst mortgage bonds of the St. Louis, Vanlalia & Terre Haute Railroad Company operated under lease by the Terre Haute & Indianapolls Railroad Company, and the latter having been unable to meet its obligations to the other lines leased by it, all its properties have been, at their instance, placed in the hands of a receiver. Under his state of facts, although the Vandalia Company was in no way responsible for the iefault of its lessee, and was fully able to meet its own obligations, it was found impracticable to sell its securities to advanage and thus provide the means to retire he bonds referred to. Your company has, therefore, as the indirect guarantor thereof, become their purchaser, and will hold hem until the relations between the Terre Haute & Indianapolis Railroad Company and its leased lines are finally adjusted. The board renews its acknowledgments to the officers and employes for the fidelity and efficiency with which they have discharged their duties during the past year, The number of depositors in the employes' savings fund at the end of the year was 4.944, an increase of 431. The amount received from depositors during the year was 461,189.46, and the balance in the fund at the close of the year was \$1,759,893.26, of which \$1,700,000 is invested in securities bearng interest at the average rate of 4 per The membership of the Employes' Relief Fund at the close of the year was 10,853, the largest since its establishment. During the year the members contributed \$694,776,49, while the company and its affiliated lines contributed \$103,748.11 for operating expenses and \$40,214.20 for extra benefits to members whose disability had continued more than fifty-two weeks, and who were therefore no longer entitled to reguar benefits from the fund. The total receipts were \$855,880.44 and the balance on hand at the beginning of the year \$294,954.96. There were an unusually large number of deaths during the year among officials, including Henry D. Welsh, of the official board for many years; John Scott, for forty years the general solicitor or connected with the legal department; Robert Neilson, general superintendent of the Northern Central, whose deaths were appropriately alluded to, and the death of Presdent Roberts is mentioned in such a man-

Reform Was Necessary. A few days ago it was stated that the shopmen of the Vandalia at Terre Haute were not satisfied over the more strict discipline now enforced, and the appointment of an inspector to look after violations of rules. An official of the road gives excellen reasons for taking such a step. He says; "We were losing about two carloads of coal a week by people stealing from the coal dumps, also tools, shovels, men's overails and clothes were stolen off of engines standing in the yards; workmen's tools were taken from their locked chests, etc. At no time were there less than five and often ten or twelve visitors in the shops, talking to | fective on the Baltimore & Ohio on Monemployes. Joint Traffic Board of Control. Following is the report given out at the close of the meeting of the railroad presidents held at New York yesterday. The meeting of the board of control of the Joint Traffic Association was fully attended. The Norfolk & Western question was fully considered, President Fink, of that company, having met a committee of the presidents and the result seemed to indicate an early adjournment. The commissioner reported improved conditions east-bound from Chicago better than at any recent period and action was taken looking to appointment committees at other cities to consider the status at those coints On the whole the meeting was satisfactory to its members and in the judgment of Chairman Depew tended to strengthen the belief of all parties thereto in the usefulness Results Are Considered Satisfactoryand permanence of the association. Resolutions eulogistic of the late George B. Roberts, chairman of the board of control and president of the Pennsylvania Railroad,

were adopted and ordered engrossed. Carriers Must Obey Shippers. handed down a decision affecting the responsibility of a carrier for damages resulting from failure to obey a shipper's instructions. The case is that of W. R. Rea, of Verona, Miss., against the Mobile & Ohio Railroad. He directed the agent to ship a consignment of potatoes to St. Louis via certain route. The agent refused to so bill the consignment and the consequent loss to the consignee was \$100. The commission rules that the shipper is entitled to have his merchandise carried over the route which he selected, and the carrier's failure to re-

Charles D. Pringh and John Perry Each Want \$1,000-A Deal in Newton County Bonds.

Charles D. Pringh and John Perry yesterday filed separate suits for \$1,000 each against Police Superintendent Colbert, Turnkeys Al Taffe and John Long and Messrs, Maguire, Mack and Morse, members of the Board of Safety. They were arrested in February, and say that on account of the flithy condition of the police station they were covered with vermin when released nine hours later, and had to burn their clothing to get rid of it. Perry had been to a wake and was returning home early in the morning. He is an old man and suffered from his stomach a great deal. The pain in his stomach became severe and he sat down on a curbstone, and was almost doubled up with pain when | city. Patrolman Hanlan came along and gave Perry a punch with his foot. He then arrested him for drunkenness. Pringh came WILL RECEIVE A LARGE SUM ON ASalong and remonstrated with Hanlan for abusing an old man and Hanlan arrested him for loitering.
